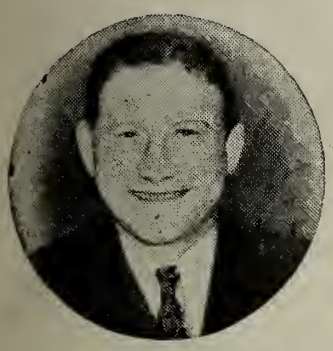
VOL. 5, NO. 2 OCTOBER 5, 1943 SERIAL NUMBER 106

"The Coin Machines Merry-Go-Round"

By Bill Gersh



SECOND WARTIME CONFERENCE

It is with great pleasure that we are able to report at this time that the success of the Second Wartime Conference, which will be held in Chicago in about five or six weeks, is assured. Tho some of the men haven't as yet filled out and sent in participation forms others already have and most of these report that they plan to bring along as large a delegation as they can possibly get together. Many of the Chicago manufacturers are not only planning to be present but are also arranging to have suites of rooms where coinmen will be invited to have a cup of coffee and talk things over. The speedy momentum that is developing clear across the nation for all to attend the Second Wartime Conference is unusually impressive and inspiring.

A great many problems will be presented and will no doubt be thrashed out among those who will attend. We have learned that each individual has something or other on his chest that he would like to bring before the gathering. Some of the problems that will be presented are of an extremely important nature. Others will probably meet with quick decisions. In general, tho, everyone is preparing himself for a very definite part in the conference.

One of the very first and paramount reasons for this Second Wartime Conference is greater cooperation with the war effort. All are in agreement that discussions as to how, where and why all this industry can better help the war effort will result in acclaim for the trade. It is believed that every distributor, jobber and operator can be of tremendously greater help to the war effort by bringing home to each of his retail locations the fact that greater effort now assures earlier victory. This is something that is peculiarly suited for the coin machines industry. Coinmen are exclusive in the fact that they cover almost every type of retail location. One suggestion has already been made that the U. S. Treasury Department be approached and that some sort of display be arranged which coinmen can change regularly in their retail locations thruout the nation, to impress the customers of these locations with the need for even greater effort now to win the war faster. We believe that this is one of the finest suggestions that has as yet been presented. We also believe that no other group in the country can as effectively nor as completely cover the retail outlets of this nation as can the coin machines industry. Yet, this is but one suggestion. There will no doubt be a great many others offered which will prove just as worthwhile and just as inspiringly ingenious.

In addition there come the many problems of the trade itself. The OPA situation is expected to have cleared up by the time the meet is called to order. There is also the problem of taxation which seems to be gripping the industry as legislators meet once again. Not only the problem of further federal taxation, but city, county and state taxes are going up and new and higher taxes are also being put in effect. A suggestion has been made that a committee be appointed thru the National Board of Trade wherein a complete study of tax problems can be made and that all records of all taxes now in effect be kept so that such a centralized group will be able to help and give complete information in all cases where taxation is coming up for the first time or where it is being increased to exorbitant levels by rapidly producing necessary and helpful precedents.

Problems are also already being forecast for the post war era. For example, there is the problem of equitable distribution of new equipment when the manufacturers start to produce all over again. Tho this may seem a long way off - it will come to a head at some time or other in the future and preparation for it now will save a great many headaches later on. Standardization of parts for similar types of machines is also being requested so that not only will those parts be cheaper but also that they will then be easier to obtain and to stock and be completely interchangeable for repairs.

Those who haven't as yet sent in their participation form should do so immediately and also arrange for extra forms to be filled out by their friends in this industry. There is no doubt anymore that this Second Wartime Conference has captured the attention and imagination of everyone of the coinmen from coast to coast. Participation forms already received range from the warm South, thruout the cosmopolitan cities of the East, to the busy Midwest and into the turbulent Pacific Coast. Men from every state will be present. Many of these men are eager and even anxious to talk it over,

"The Coin Machines Merry-Go-Round"

to meet with those others who are in it for the duration like themselves. They want to once again say, "Hello". And they are all especially thrilled to again be packing their grips, taking along an extra tie, and meeting with "the old gang".

FALLING PRICES CREATE LULL

It has been interesting to note these past few weeks that demand has somewhat fallen and that prices have also fallen to meet this lowered demand scale. This is but an economic fact that comes under the old standby of supply and demand. The fact that action has slowed down for a while was more or less expected. The constant increasing zoom of prices brought this about. Many have tremendously stocked themselves. Few saw the possibility of demand slowing down because of retrenchment. Yet all this is only a temporary respite.

Thruout the country many routes have been cut down to the bone. This was but natural. With manpower becoming ever scarcer many were forced to cut down on their operations, thereby releasing much equipment too suddenly. This same holds true in the critical gasoline areas where many were forced to cut down due to the fact that they could not afford to take care of outlying locations. At the same time others felt that the extremely swollen prices were worth the sales of certain of their machines, and this, too, helped to boom the sales market temporarily but is now having its reactionary effect.

The reaction to this entire inflationary splurge is now being felt, and when OPA stepped in with a new regulation, completely confusing some of the trade, this, too, had any but the desired effect to allow for a more rapid recovery. With all these facts before the average coinman it is simple to understand why suddenly there now seems to be a lull in the market. Actually this sales lull is not making itself apparent as far as revenue is concerned. It is something that can be likened to climbing up the side of a mountain and reaching the peak, the other side of this peak is a downward climb. We are now going down to a more normalized price valley. Prices will continue in this valley for a short while.

The speedy action which has been most noticeable in the trade these past 18 months will once again be resumed and probably on even a heavier scale than before. Much new blood is already known to be entering into the field. Already many distributors report sales to factory workers of small numbers of machines. These men maintain their present job and service their machines during their evening hours. The fact that they need spend but one or two evenings per week to earn double what they are earning at present and to assure themselves a steady income after war production is halted by the cessation of hostilities is creating great interest among these men and bringing their many friends to this field. Reports have reached us of such men operating 5 and then 10 and 15 and even more machines. Such reports bear out the conviction that the trade will rapidly recover from this lull and that prices will shortly attain a normal aspect.

Also affecting present activity is the possibility of the war terminating sooner than many thought possible. This, too, has somewhat halted purchases of equipment. Many are content to remain as is with the belief that the war will soon finish and that they shall then be able to obtain new equipment. This is a fallacy, to say the least. Even 12 to 18 months after the war finishes we cannot foresee complete production on the part of any of the factories of new equipment. These men will recover from this rosy little dream and once again find it necessary to plunge into action to maintain themselves in this business on their present level.

We therefore do not look upon this lull as serious in any of its aspects. We do believe it but the natural and cumulative result of the turbulent, inflationary action which has been apparent thruout the field for sometime now. We believe that not only will this lull prove temporary, but the action that will result will be greater than ever before. It is well to remember that the equipment being sold by this industry is not "expense" equipment, like furniture or clothes, but rather "income producing" equipment - which, in itself, is of supreme importance to continued good business.

INSURANCE

Certain large insurance organizations are becoming more than ever interested in the coin operated machines industry. Many of these men have already approached The Cash Box as to whether coinmen would be willing to buy fire and theft and general marine coverage insurance for machines on locations. They claim to have been approached by many in the trade and have been working on ways and means to clear thru a large amount of such insurance at one time to bring the cost down to an extremely reasonable figure. With the possibility that large insurance firms may enter into the picture the trade faces another brighter possibility. These insurance men have been questioning The Cash Box and would like to know whether the trade is interested in insuring its equipment on locations and just what type of insurance would be most beneficial.

"The Coin Machines Merry-Go-Round"

TRUCK COVERAGE

Some distributors have started to use large trucks to cover their territories. They purchase machines, arriving in these large vans to visit their trade, put them right on the truck and continue on to the next town. Once full up they come back to their headquarters to recondition the equipment purchased and thereby have been bringing more machines to market. Tho this method isn't new, it deserves comment at this time for it will prove of real value in helping to bring more equipment to market.

POST WAR FACTORY

A few weeks ago, while in Chicago, we visited our first post war coin machines factory. It was extremely interesting due to the fact that it gave us, and others who were present, some idea of what manufacturers are planning. The offices were extremely modernistic and impressive. Everything smacked of newness and of a desire to get into speedier and better action.

Remember that converting from former products to war products was the hardest job these factories have ever been up against. Reconverting back to former products will not be anywhere near as tough. In the meantime all the many lessons learned by the manufacturers in the use of precision instruments for testing and manufacturing purposes will prove of great benefit to all of the industry when production starts again.

It will prove extremely inspirational to those men who will attend the Second Wartime Conference to visit some of the factories in Chicago and note what tremendous changes have taken place. It will prove especially advantageous to talk with the manufacturers and listen to what they have learned regarding these new manufacturing processes and how they believe these will enable them to turn out better products than they ever did before.

Most of the leading manufacturers will be present at the Second Wartime Conference and are planning to have suites at the hotel where the conference will take place, so that all their friends can call around and get together with them once again.

ENTHUSIASM

One of the most outstanding factors for the continued growth of this industry has been its enthusiasm to enter into new worlds and conquer them. There have always been pessimists and there always will be. It is these men who create the optimists - the enthusiasts. It is these pessimists who meet with the enthusiasts and find that these latter, because of their high spirits, do the impossible everytime - successfully. Thank the Lord for enthusiasm.

We believe that most coinmen are enthusiasts. They're enthusiastic even about the smallest type of machine. They want to get into action. They feel that they can make things work out. They do make them work. They also make them earn more money than anyone thought they would. They are the kind of men who have pushed this industry up on a higher plane each year. They like this business - its excitement - its good fellowship - its sportsmanship - its understanding.

They are the men who will go ahead to make this industry greater and still greater each year - and all will benefit. When these men see a temporary lull they simply push their way right thru it - to greater action. It is these men, whose spirits can't be dampened, that push thru the greatest difficulties and push all others up with them. These men, these enthusiasts, these are the men this industry is most thankful for. Let's all give a little more enthusiastic push to our industry by looking ahead to the grand and glorious future that faces it.

DECCA SETTLES WITH PETRILLO

Decca Records, Inc., has just settled with James C. Petrillo and his AFM for the manufacture of records. As was announced by Jack Kapp, president of Decca, there would be no price increase to the public. Our own instant questioning elicited the information that there would also be no price increase to the operator. The music operator is the man The Cash Box has been solely and exclusively concerned about since the recording ban went into effect 13 months ago. The work of The Cash Box in attempting to help settle this ban is well known to all the industry. It is therefore extremely gratifying to us to hear this good news and it is our belief that the other record manufacturers will soon settle their difference along the same lines with Petrillo. And, we also believe, that they, too, will not increase prices to the operators, now that Decca has taken this stand. Decca reports that they have always cooperated with the music machines operator and always will. That's even better news.

Decca's many famed recording stars, especially the inimitable Bing Crosby, super-deluxe money-maker for the coin operated phonos, will now be recording the songs that sprang into the number one popularity bracket these past 13 months. These are bound to revive plenty of good play. Most of all they will settle those grouches on the part of location owners complaining about the need for new records. Well, here the coinmen can once again flash the news to their locations thruout the country that the new records are coming and soon.

Decca Record men will also be present at the Second Wartime Conference and this will give these music machines men who will be present an opportunity to get a load of questions off their chests. We believe that Decca will be capable of answering all questions for those who will attend.

SIGN THAT PARTICIPATION FORM TO BE SURE TO GET YOUR ADMISSION TICKET TO THE CONFERENCE.

Odd Coins

By Joe Orleck

A (1943) COPYRIGHTED FEATURE OF "THE CASH BOX" 381 FOURTH AVE., NEW YORK

The war activities of the civilians of this country to further the war effort is as important as the part being played by the fighting forces. We're buying bonds, donating blood, raising funds, producing war materials, etc., etc. However, there are additional ways in which we, as an industry, can help .... and Ray Moloney, president of Bally Manufacturing Co., Chicago, Ill. brings the coin machines industry a plan to do something extra and directly personal for our Navy. Ray calls it "AdoptA Fighting Ship". The plan calls for the industry to donate recreational equipment to be used aboard ship. Bally has donated a special communication system - speakers, amplifier, microphone, record changer, converter, etc. complete - for broadcasting recorded music thruout the various crew living quarters on the ship. Moloney suggests that the entire industry join in raising a fund to furnish similar recreational material for many more ships.

CHARLIE SNYDER, Western Specialty Co., Omaha, Nebr. offers pins and parts for consoles and music....SID WOLBARST, New England Exhibit Co., Boston, Mass. selling slots....HARRY JACOBS, JR., United Coin Machine Co., Milwaukee, Wisc. offers a lot of 1-balls....H. P. McDONALD, The Music Machine Co., Brunswick, Ga. selling consoles and slots....A. SALMAN, Globe Games Co., Cincinnati, O. wants slots and music....VINCE Mc CABE, Mayflower Distributing Co., Buffalo, New York selling music.

EDWIN PUZIA, Chrome Coin Company, Cudahy, Wisconsin offers a rebuilding service for Mills and Pace slots....JACK MARKHAM, Miami Distributing Co., Cincinnati, O. offers a few routes for sale....JERRY KERTMAN, American Coin Machine Co., Rochester, N.Y. wants late music.....HY GREENSTEIN and JONAS BESSLER, Hy-G Amusement Co., Minneapolis, Minn. selling Mills Owls....D. SOLOMON, Joy Automatics, Elmira, New York wants music.

RUDY VOGT, The R. F. Vogt Distributors, Salt Lake City, Utah selling consoles and 1-balls....BILL DONLON, Wm. P. Donlon & Co., Utica, New York wants arcade equipment and automatic coin counting machine....HYMIE ZORINSKY, H. Z. Vending & Sales Company, Omaha, Nebr. selling postage machines.....DAN WERTZ, Wertz Supply Co., Richmond, Va. offers music.....MORRIS and HENRY GISSER, Cleveland Coin Machine Exchange, Cleveland, Ohio offers a voice recording studio.....REED MORGAN, Central Novelty Co., Louisville, Ky. selling consoles and pins.....JOHN M. STUART, Paris, Ky. selling consoles and 1-balls.

Received word from Chicago that Bill Gray, American Sales Corporation, Chicago, Ill. passed away September 17th.

MAURICE KUSHNER, X. L. Sales Co., Providence, R.I. runs a sale of slots.....H. BIEGANSKI, Lake Novelty Co., Cudahy, Wisconsin, selling slots and consoles and wants all types of equipment.....DAVE LOWY, New York City, offers music and accessories..... GEORGE PROCK, Geo. Prock & Co., Dallas, Texas selling music.....SAM and HARRY WICHANSKY, Atlas Vending Co., Elizabeth, N.J. offers music, resistors, consoles and slots.

DIXIE SALES COMPANY

682 MADISON AVENUE MEMPHIS, TENNESSEE

Girl Escapes Nazis

She escapes the terror of Nazi rule only because she is an American—safe in America, far from the fury of war.

She will remain free, untouched by bestial Nazi hands, only because American men are fighting day and night, pounding the Fortress Europe, sacrificing their lives to destroy the curse of Nazism.

And American fighters can do their bitter, bloody job only if we at home—**safe in America, far from the fury of war**—lend our support ungrudgingly.

Buy War Bonds. Buy the Bonds you can easily afford as a good investment. Then dig down again and buy Bonds until you know in your heart you're halfway square with the men who are fighting and falling in battle for you.

NOTICE

MARCH, 1942, MARKET PRICES APPEARED IN THE SEPTEMBER 7, 1943 ISSUE. PRICES LISTED ARE CURRENT WEEK'S MARKET PRICES.

IMPORTANT

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the week; Where only one price appears this should be considered lowest price.

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for each week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price for the week, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

6—Means no prices quoted for this machine for past two weeks.
7—Means no prices quoted for this machine for past three weeks.
8—Means no prices quoted for this machine for past four weeks or longer.

THE CASH BOX - 381 FOURTH AVE., NEW YORK CITY

ATTN BILL GERSH

WE ARE TENTATIVELY SCHEDULED TO APPEAR BEFORE THE HOUSE WAYS AND MEANS COMMITTEE THURSDAY, OCTOBER 14, 1943. OUR HEADQUARTERS WILL BE THE STATLER HOTEL, WASHINGTON, D.C. SUGGEST AND WOULD APPRECIATE YOUR PUBLICIZING THIS DATA IN THE CASH BOX SO THAT THOSE WHO DESIRE CAN APPEAR BEFORE THE COMMITTEE WITH US AND CAN MAKE THEIR PLANS ACCORDINGLY. SUGGEST, HOWEVER, THAT REPRESENTATIVES OF OUR INDUSTRY BE PRESENT IN WASHINGTON ON OCTOBER 13th. IN PUBLICIZING APPEARANCE STRESS THE NECESSITY FOR STATISTICS AND PETITIONS VITAL TO OUR SUCCESS REGARDS -

CURLEY ROBINSON AND ARTHUR MOHR

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated; that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated message rate is charged in addition. Unless otherwise indicated on its face, this is an unrepeated message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unrepeated-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines.

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. Except as otherwise indicated in connection with the listing of individual rates in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has an office which, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where, as shown by the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits above specified the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in the case of any message except an intrastate message in Texas where the claim is not presented in writing to the Company within sixty days after the message is filed with the Company for transmission, and in the case of an intrastate message in Texas the Company will not be liable for damages or statutory penalties where the claim is not presented in writing to the Company within ninety-five days after the cause of action, if any, shall have accrued; provided, however, that neither of these conditions shall apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.

9. No employee of the Company is authorized to vary the foregoing.

10-42

CLASSES OF SERVICE

DOMESTIC SERVICES

TELEGRAMS

A full-rate expedited service.

DAY LETTERS

A deferred service at lower than the standard telegram rates.

SERIALS

Messages sent in sections during the same day.
